

# CLIMATE ZONE 7 - FLOOR PLAN INTERIOR LAYOUT (NOT TO SCALE)

**PROJECT NAME:**  
Climate Zone 7  
House Interior

**DRAWING:**  
Floor Plan  
Interior Furniture Layout

**DATE:** 11/04/2022

**DRAWING NUMBER:** 001

**NOTES:**  
Interior layout example  
for existing dwelling type in  
Climate Zone 7 using  
passive design principles.

Older, existing housing in  
this zone tends to be raised  
on stumps.

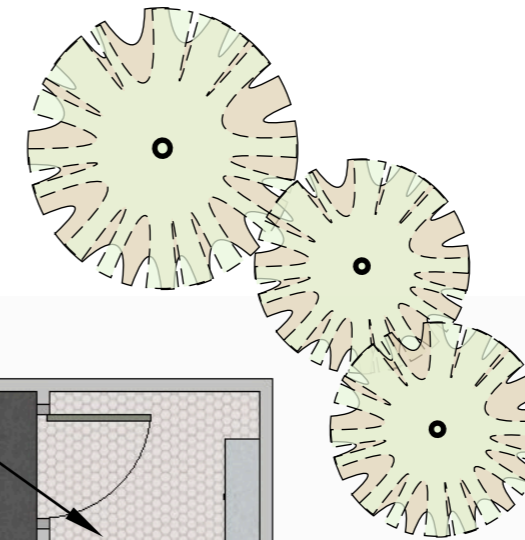

Timber construction with  
poor insulation.

Interior design assumes  
minimal renovations to  
existing structure.

**KEY:**

-  WINDOW
-  CAVITY SLIDING DOOR
-  SINGLE SWING DOOR

Shading for west facing  
rear entry & laundry

Rear entrance could be  
enclosed for airlock  
Laundry/mudroom could  
also be used for airlock

Cork flooring in bathroom

Airflow through house  
controlled by pocket doors  
and clear spaces

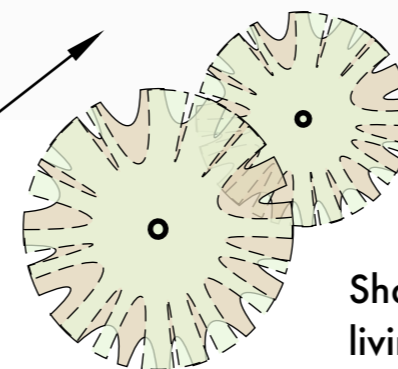

**Bedrooms:**  
Wall-to-wall carpet  
Pellets & curtains  
Blockout blinds north facing

**Living room:**  
Engineered wood or  
laminate flooring  
Area rug for insulation  
Pellets & curtains  
Blockout blinds north  
& west facing  
Keep furniture away  
from windows

Lighter colours in  
north facing rooms  
to counter bleaching  
from sunlight

Front entrance could be  
enclosed for airlock

Wider eaves or external shading  
for north facing windows

Shading for north facing  
living room
